Summary

With a history in education and a lifetime of studying music, I am a passionate and dedicated learner who believes in using the creative mind to figure out solutions and solve any problem I face. Whether working with my students, teaching myself an instrument, or learning new coding and programming languages, I believe that with time and dedicated practice, anything is possible.

Skills and Languages

- React
- Ruby on Rails
- Python
- Java
- Flutter
- Express
- CSS3
- SQL
- Node.js
- MongoDB
